Program Summary

We are looking for passionate, motivated Fellows to join the team! The Fellowship Program is intended to provide diverse recent graduates with a 4-month educational experience in modern digital sports media. Those hoping to succeed in today's media landscape need to know how to do more than just write or edit. As such, we've created a training program to allow Fellows the opportunity to explore 4 essential functions of working in digital sports content. Fellows will rotate through three functional areas throughout the program.

By the end of the program, Fellows should have all the tools necessary to confidently apply their skills in the digital media world. Additionally, Fellows will be assigned a large final capstone project to work on throughout the program. This project will be submitted towards the end of their assignment and can be used as a foundational piece of their content portfolio post-program.

This position is 100% remote and can be completed from anywhere in the United States!
